Rotaaid 24/7

AED list: limited compatibility

The Rotaaid 24/7 cabinet is able to use all functionalities in combination with the AEDs listed below except for one. Only the AED self-test does not work.

In short – In comparison with AEDs with fully compatibility, the Rotaaid 24/7 cabinet is not able to detect the AED self-test failure detection for the AEDs listed below.

The AEDs listed below are able to make use of almost all functionalities in combination with the Rotaaid 24/7 Cabinet. The only functionality that does not work is the AED self-test. This means that the AED must be physically inspected periodically. Although, sensors can detect if the AED is present and if the cabinet is open or closed. Notifications can be sent by text or E-mail messages.

Rotaid Solid Plus & Rotaid Solid Plus Heat Led

AEDs placed in the Solid Plus Heat Led cabinet must be fitted with the manufacturer's recommended outdoor bag.

- * Fits only with thin bag (even better without bag)
- ** With optional bracket (necessary for Solid Plus Heat Led)
